OPEN DOORS: MIZZOU

Each year, International Programs reports data on behalf of the University of Missouri to the Open Doors Report on International Educational Exchange (iie.org/opendoors), published by the Institute of International Education. Supported by a grant from the Bureau of Educational and Cultural Affairs at the U.S. Department of State, Open Doors is a comprehensive information resource on international students and scholars studying or teaching at higher education institutions in the United States, and U.S. students studying abroad to earn academic credit at their home colleges or universities.

OPEN DOORS: MIZZOU provides an overview of the most recent data available on international education at the University of Missouri.

Data notes

INTERNATIONAL STUDENTS

Reporting fall 2020 data; however, comparisons with national Open Doors data should use 2019/20. For the purposes of this report, international student data includes students studying at MU on F-1 and J-1 student visas, as well as F-1 students participating in postgraduate optional practical training. This does not include students on other visa types that may permit academic study. International student data is also available from the University Registrar (registrar.missouri.edu).

INTERNATIONAL SCHOLARS

Reporting 2019/20 data. Note that this data includes international faculty, staff and researchers for whom MU issues a J-1 or H-1B visa. Hundreds of additional international visitors come to the university each year on visa documents issued by other organizations.

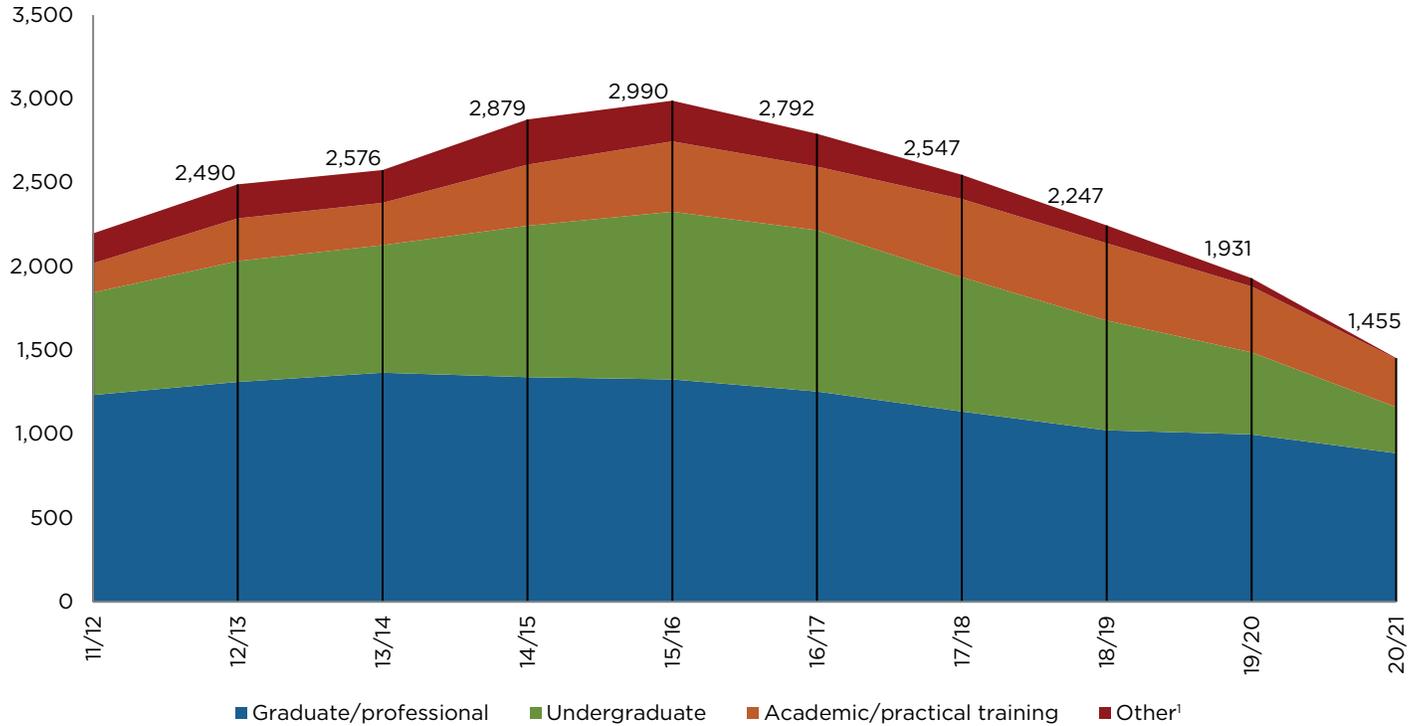

STUDY ABROAD

Reporting 2018/19 data. Final numbers for 2019/20 will not be available until spring 2021, when they are submitted to the Institute of International Education for the Open Doors 2021 reporting cycle. Unless otherwise indicated, all study abroad data includes visiting students and non-U.S. citizens who participated in MU study abroad programs. Students who studied abroad more than once during an academic year were counted as two separate participants.

³ Includes visiting students and non-U.S. citizens who participated in MU study abroad programs. Students who studied abroad more than once during an academic year were counted as two separate participants.

⁴ Undergraduate participation rate uses the Institute of International Education Open Doors (iie.org/opendoors) data definition for participants, which includes only degree-seeking students who are U.S. citizens/permanent residents. Rate is calculated based on participants relative to undergraduate degrees conferred.
