DIGITAL MEDIA LAB

The Digital Media Lab in Ellis Library has a recording booth; a 3D scanner (Structure Sensor); art tablets; and VR goggles (Google Box). These resources are available to students, by appointment, for educational purposes. Students can request an appointment to use these resources using the links at the bottom of each resource.

LIBRARY COLLECTIONS

University Libraries provides access to millions of items, from cuneiform tablets to the latest online resources.

Specialized databases, electronic journals, rare books, archival materials, music, video, government information, digital collections, data sets and much more.

Consortia memberships & interlibrary loans extend access to resources worldwide.

Consult with your subject librarian to recommend additions to the collections.
